

## **Intermediate/Senior Civil Engineer**

**VAST Resource Solutions Inc. (VAST)** is a diverse and growing natural resource management and engineering consulting company based in Cranbrook, BC, providing professional services to private and public sector clients throughout western Canada. We are seeking an experienced, field-ready **Intermediate/Senior Civil Engineer** to join our team. This is a permanent full-time position to begin as soon as the ideal candidate is found.

### **Responsibilities:**

- Provide professional engineer consulting services to industry, government, agency and NGO clients for a diverse array of engineering and environmental projects;
- Prepare and design contract drawings (i.e. municipal roadway, subdivision road, etc.);
- Conceptual bridge design for forestry, municipal, and highway structures;
- Municipal services; water and sewer system designs and upgrades;
- Prepare technical documents including, but not limited to, feasibility studies, concept design, detailed design, and design criteria reports;
- Provide technical QA/QC review of designs, reports, proposals and communications prepared by staff and/or subcontractors;
- Manage and monitor construction contracts, and perform site inspections;
- Asphalt, aggregate, and concrete testing and analyses;
- Contribute to EOI, RFP, RFQ and Tender responses and scope of work proposals;
- Collaborate with other project leaders on all aspects of project management including budget development and monitoring, time and cost tracking, client and regulatory communication, reporting, and invoice preparation; and,
- Marketing and business development.

### **Requirements:**

- A BSc or MSc in Civil Engineering from a recognized academic institution, plus five or more years of practical field and design experience; previous consulting experience would be an asset;
- Registered, or eligible for immediate registration, as a Professional Engineer (P.Eng.) with Engineers and Geoscientists of BC (EGBC);
- Knowledge of local, provincial and federal legislation and policies relating to civil engineering, and experience liaising with regulators, First Nations, and other key stakeholders;
- Demonstrated ability to proficiently complete the identified job responsibilities;
- Crew and team leadership experience;
- A current Driver's License;
- Civil 3D and AutoCAD skills; and,
- Strong written/verbal communications skills.
