Water Quality/Environmental Technician

VAST Resource Solutions (VAST) is currently growing our Aquatics group and looking for an enthusiastic individual to join the team. We have an immediate opportunity for an experienced **Water Quality/Environmental Technician**, preferably based in the Elk Valley (Elkford, Sparwood or Fernie). The primary duties for this position include:

- Conducting surface water and groundwater sampling, and flow measurements at various client worksites using a variety of sampling techniques and equipment, and preparing and packaging samples for laboratory analysis.
- Calibrating, sanitizing, maintaining and operating analytical, monitoring and data collection equipment.
- Recording numerical and visual observations at worksites, performing photo documentation, and completing client-specific reports.
- Assisting with project planning and implementation, including health and safety, resourcing, budgeting, scheduling, reporting, quality management, and client liaison.
- Assisting with other aquatic, fish and environmental projects on an as needed basis.

The typical work schedule for this position is Monday to Friday, 8 to 10 hour days including travel. This is a permanent position with seasonal variation in the work schedule.

Candidates must be able to safely and efficiently operate 4-wheel drive trucks (i.e. Class 5 BC Driver's Licence), ATVs, snowmobiles, watercraft, utility trailers, analytic meters, and data collection devices. Proficiency with word processing software, spreadsheets, databases, email, GIS, etc. is required.

Applications will be evaluated as they are received; the posting will close as soon as the ideal candidate is identified. Please email your resume to:

VAST Resource Solutions Inc. Attention: Dave Struthers, PAg, Owner/Principal
