

Environmental Site Assessment/Remediation Specialist (CSAP)

Our Team

VAST Resource Solutions Inc. (VAST) is a diverse environmental, engineering and forestry consulting company. We are a trusted advisor and regional expert, delivering professional and practical solutions for complex and challenging projects across multiple industries. VAST is a locally owned business based in Cranbrook, British Columbia (BC) and gives back to the communities we serve throughout the beautiful Kootenay regions of BC.

VAST embraces a culture that provides a welcoming and empowering environment for our employees to advance their careers, embrace new challenges, and grow their expertise while working within a collaborative, energetic, and passionate team. Employees are truly valued and respected, allowing for flexibility, creativity and an innovative approach to work/life balance.

The Opportunity

To support VAST's strategic goals and growth, we are on the lookout for talented individuals that will embrace our close-knit culture and positive, team-oriented working environment.

VAST is looking to add an **Environmental Site Assessment/Remediation Specialist** to our team. The successful candidate will lead environmental site assessment, contaminant investigation and remediation projects for multiple clients in the region.

Your Responsibilities

- Project management, planning and execution of environmental site assessment and investigation projects of different scales and complexities, including Phase I and II ESA / Stage 1 and 2 PSI, Detailed Site Investigations and remediation activities.
- Prepare project-specific scope of work, cost estimate/budget, schedule and proposal packages.
- Fieldwork, including site inspection, data collection, environmental sampling and monitoring.
- Supervising subcontractors and equipment, including utility locates, excavation/earthwork equipment, drilling rigs and hydro-vac operators.
- Provide mentoring and supervision of project staff related to technical work, data interpretation and evaluation, and report writing.
- Prepare and review high-quality technical reports and client/regulatory submittals under the BC Contaminated Sites Regulation for Release Notices, Independent Remediation, Approvals in Principle and Certificates of Compliance.
- Provide technical expertise to other environmental and engineering projects.
- Support business development and marketing initiatives to achieve growth goals.
- Manage and foster client and stakeholder relationships with industry, government, First Nations, regulatory agencies and non-governmental organizations.
- Contribute to a positive workplace atmosphere, building on VAST's culture of teamwork, fun, professionalism and cooperation within the office and field environments.

Our Ideal Candidate

- Post-secondary degree in environmental engineering, environmental science, agriculture, geoscience, or other relevant disciplines from a recognized academic institution.
- In-depth knowledge of the legislation and regulations governing contaminated sites, remediation, and environmental management in British Columbia (BC).
- 10 or more years of practical environmental industry experience focused on environmental site assessments and remediation projects.
- Registered professional, or eligible for registration, under the Professional Governance Act.
- Contaminated Sites Approved Professional (CSAP) designation in BC.
- Strong project management skills with experience leading and mentoring staff teams.
- Superior written and verbal communications skills.
- Strong interpersonal, organizational and time management skills.
- Detail-oriented, emphasizing quality of work.
- Committed to health, safety, and wellness.
- Current Driver's License.

Our Offering

VAST prides itself on being valued and trusted by our employees, clients, colleagues, and the communities in which we live, work and recreate. We are focused on capitalizing on our team's diverse skills and expertise to become the trusted name in resource consulting, with a proven track record of providing exceptional client service, offering practical solutions, and delivering projects on time, in scope and on budget.

VAST provides our employees with:

- Challenging and rewarding work responsibilities in a collaborative team environment.
- A friendly atmosphere, including teambuilding and social events to build camaraderie.
- Professional development, mentoring and career advancement opportunities.
- Competitive wages and a comprehensive employee benefits package.
- An annual bonus/profit-share program.
- Support of a healthy balance between career and personal commitments.
- Flexible schedules to align with work demands and personal priorities.
- A 'dog-friendly' workspace, welcoming friendly critters to the office and in the field.
- Unparalleled access to the great outdoors for work and play.

If you share our values, would like to experience life in the beautiful East Kootenay region of BC, and have the skills and abilities we are seeking, please email your resume and a cover letter clearly stating why VAST is the place for you by **May 15, 2022**, to: careers@vastresource.com

All responses are confidential and only individuals selected for an interview will be contacted. VAST Resource Solutions is committed to providing equitable treatment and equal opportunity to all persons throughout our recruitment, selection and employment processes.

Thank you for your interest in VAST Resource Solutions!
